Dear Parents,

We hope you had a great week and enjoyed some quality time with your children during the mid-term long weekend!

As we enter the second half of Term 1, we have an action-packed schedule ahead, which includes academic challenges such as both internal and external assessments, along with various engaging events. We are committed to improving the quality of education by prioritising both internal and external reviews, along with continuous staff development aimed at enhancing teaching and learning. We conduct ongoing assessments regularly and ask for your support to maximise our school attendance for our students' seamless personal and academic growth.

Please note that our Primary Science Week will be held next week, and we look forward to seeing the inquiry, research, and hands-on learning our students demonstrate to solve real-world problems. Additionally, we are excited to witness the Sensory Exploration Week events by the FS department that will engage our youngest learners in exciting and immersive activities designed to stimulate their senses and curiosity.

We request your continued cooperation with our academic team to help ensure your child receives the support they need to succeed.

With the weather improving, our teachers and enthusiastic students are ready to give their best in all activities. This year marks our Golden Jubilee, celebrating our commitment to value-based education, symbolised by our growing tree representing the values we instil in our students; we look forward to continuing this journey together toward our Platinum Jubilee.

A heartfelt Diwali greeting to the families who celebrate this auspicious festival.
